I am a Software Engineer in Test with over 7 years of experience in Quality Assurance, specializing in building robust automation frameworks for web and mobile platforms. My expertise lies in bridging the gap between quality standards and modern software development. I have a proven track record of implementing scalable test solutions using Playwright, Cypress, Selenium, Appium, WebDriverIO, and Selenium. With a background as an ISO 9001 Lead Auditor, I bring a unique perspective to QA—combining technical engineering excellence with a deep understanding of process optimization and international quality standards.

### **Core Competencies:**

- **Automation Leadership:** 5+ years of experience designing frameworks that reduce testing duration by up to 80% and accelerate CI/CD pipelines.
- **Mobile Testing Expert:** Deep focus on Android and iOS architectures using Appium, Charles Proxy, and Proxyman for in-depth debugging.
- **Agile & Process Excellence:** Expert in enhancing workflow efficiency through Agile/Kanban methodologies and establishing high-standard QA cultures.

### **EXPERIENCE**

#### **Pointr Deep Location Company, England - Software Engineer in Test**

OCT '23 - Present

- Promoted to Software Engineer in Test to lead and oversee comprehensive mobile testing across Android and iOS platforms.
- Developed and maintained a scalable automation framework using Cypress and JavaScript, ensuring high application stability.
- Led mobile testing initiatives utilizing Charles Proxy and Proxyman for advanced network analysis, API debugging, and performance optimization.
- Optimized workflow efficiency by implementing Agile/Kanban methodologies and automating daily smoke tests via JIRA, significantly reducing manual regression time.

#### **Optimum7, USA - QA Test Engineer (Manual&Automation)**

MAY '22 - OCTOBER '23

- Designed and implemented a Manual Test Framework for E-commerce platforms such as Volusion, BigCommerce, and Shopify.
- Conducted critical testing for store setup, tax, and shipping migrations, ensuring seamless transitions.

#### **FrachtPilot GmbH, Frankfurt - QA Test Engineer (Manual and Automation)**

DECEMBER '21 - MAY '22

- Built and managed a Manual and Automation Test Framework from scratch, utilizing JIRA for test case management and defect logging.
- Developed comprehensive Test Plans, Test Cases, and End-to-End Scenarios based on user stories.

#### **Fruveg GmbH, Frankfurt- Quality Manager/Lead Auditor**

DECEMBER '18 - DECEMBER'21

- Established the Quality Department, successfully achieving ISO 9001 and ISO 22000 certifications.

### **CERTIFICATES**

- o [ISTOB Foundation Level Certificate](#)
- o [ISO9001/22000 Lead Auditor Certificate](#)
- o [German Language B2 Certificate](#)
- o [ISO 13485 Medical Devices Quality Management System](#)

### **SKILLS**

- Testing Tools: Cypress, Appium, Selenium, JIRA, Test Rail
- Programming: JavaScript, Java
- Methodologies: Agile, Kanban
- Other: Charles Proxy, Postman, Git/GitHub

**LANGUAGES** o English-C1 o German B1

## **PROJECTS**

- **Beacon Broadcaster Pro & Desktop**
  - **Role: Full-Stack Developer (Hobby) Technologies:** Flutter, Dart, Bluetooth Low Energy (BLE), macOS/Windows, iOS/Android Frameworks
  - Developed and published a cross-platform application for Android, iOS, macOS, and Windows to broadcast beacon signals.
  - Implemented complex BLE protocols and signal handling, demonstrating strong mobile and desktop development capabilities alongside QA expertise.
- **Indoor Mapping Application**
  - **Role: Lead Manual & Automation Tester**
  - Technologies: Appium, Jira, JavaScript, Selenium
  - Conducted comprehensive testing for mobile indoor mapping, ensuring cross-platform functionality and performance optimization.
- **E-commerce Platform Migration**
  - **Role: Manual Test Lead**
  - Technologies: JIRA, Test Rail, JMeter
  - Led end-to-end testing for migrating from Magento-Volusion to BigCommerce and Shopify, enhancing site functionality and performance.
- **Food Distribution Application**
  - **Role: Automation Tester**
  - Technologies: Java, Maven, Selenium, Cucumber
  - Implemented automated testing processes, reducing testing duration by 80% and improving application reliability.

## **EDUCATION**

Nuh Naci Yazgan University | Computer Programming | December 2025 |  
Anadolu University | Bachelor of Business Administration | June 2021 |  
Istanbul Technical University | Bachelor of Arts | July 2013 |
